Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural component). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is 1,185 sq.ft. for unit B3, 1,194 sq.ft. for unit B4 and 1,350 sq. ft. for unit B6. Note that measurements of rooms set forth on this floorplan are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floorplans and development plans are subject to change. "PRH Boynton Beach, LLC ("Seller") and The Related Group did not design, develop, or create the Condominium and have no affiliation with the creating developer. Consult the Bulk Buyer Disclosure Statement in the Prospectus for further details. The creating developer constructed the Unit and the Condominium, and, during construction, may have modified and adjusted plans and specifications for the improvements to the Condominium. The plans and specification for the Unit and the Condominium on file with applicable governmental authorities may not be identical to those current plans and specifications available for inspection in Seller's office; however, Seller makes no representation as to the accuracy of any plans and specifications. There are various methods for calculating the square footage of a Unit, and that depending on the method of calculation, the quote square footage of the Unit may vary. Seller does not make any representation or warranty as to the actual size, dimensions or square footage of any Unit and all Units are sold as each is built."

CASACOSTA

RESIDENCE FEATURES

- Two 14-story towers with ocean-to-sunset views.
- Private terraces off living areas
